

2022/23 WRCCDC SPONSORSHIP PACKAGES

BUILD AND RECRUIT FUTURE CYBERSECURITY PROFESSIONALS BY SUPPORTING WRCCDC TODAY.

The mission of the Collegiate Cyber Defense Competition (CCDC) system is to provide a controlled, competitive environment for institutions with an information assurance or computer security curriculum to assess their student's depth of understanding and operational competency in managing the challenges inherent in protecting a corporate network infrastructure and business information systems.

The Western Regional Collegiate Cyber Defense Competition is a two-day competition that specifically focuses on the operational aspect of managing and protecting an existing "commercial" network infrastructure. Not only do students have an opportunity to test their knowledge in an operational environment but have an opportunity to experience real-time incident responses.
